Security Shutters

Roller Shutter Manufacture and Installation

Albany House, Hurst Street, Birmingham

Working with Willmott Dixon Interiors we contributed to the refurbishment of Albany House in Hurst Street for Birmingham City Council.

The building was stripped back to its foundations and completely updated and refurbished. For the building's security, we fitted Armourshield roller shutters to all the renewed areas.

The new building looks modern and bright, and the security shutters help give a more contemporary look to what was previously a tired building. The finished refurbishment is clean, bright and very appealing.
