Leeds Skelton Lake Services, M1 Junction 45

Leeds Skelton Lake Services is a 'new concept' Motorway Service Area which opened in the spring of 2020 at M1 Junction 45 to the East of Leeds.

Combining world-class design with a complementary wide range of popular Food & Beverage, Ancillary Retail and Leisure 'brands', together with Business Centre and community facilities, Leeds Skelton Lake Services will be an attractive place to take a break from a Motorway journey.

HVP Shutters were selected to manufacture, supply and install their Flexiglide Vision Guard sliding shutter range to the restaurants and retail outlets.

Working with multiple contractors and fit out companies we have fitted multiple sliding shutters at the site.
